ear Sir

You need to answer each question in the comments, not delete them. Please answer each question in the comment itself and send a file with comments and answers to each question. Thank you in advance. Please make the revision quickly and qualitatively.

Best Regards, Editorial Staff

The reviewers recommend you:

1. The editors recommend the authors to adhere to the following abstract template:

The article describes a new method/idea (etc.) ..., based on ..., enabling to .... Using (describe the methods), the authors (describe the obtained results)..... As an example, we illustrate the proposed

method/technique... Our method/proposal allows to improve (any quantitative indicators by XX, X%)... The new method effectiveness evaluation is confirmed by the calculation .... New research results develop/supplement/improve ... and can be used for....

2. Please describe the research methods in more detail (to the maximum of your ability).

3. Please describe you Results: Now that you have explained how you gathered your research, you are to report what you actually found. In this section, taking no more than 4 pages, outline the main findings of your research. You need not include too many details, particularly if you are using tables and figures. While writing this section use the smallest number of words necessary to convey your statistics. Use appendices or supplementary materials if you have too much data.

4. Clarify the scope of the article results.
