Dear Dr. Muhammad Yusuf,

This is a message of confirmation regarding the reception of your manuscript **Evaluation and Development Strategy of PPI Beba (Fish Landing Port) in Takalar District**, submitted to our journal AACL Bioflux. I will soon contact you with further information regarding your manuscript.

For any questions, please contact me, on this email address.

Please try to keep one message thread (respond/ask with "Reply") for an easier message management.

Thank you for considering our journal.

Best regards,

Tudor Papuc

Fine, we have received the final form of the manuscript.
We agree to publish immediately.

Thank you for cooperation.

Pada tanggal Jum, 27 Nov 2020 pukul 16.58 Tudor Papuc <ptudor2008@yahoo.com> menulis:

You have here the final form of the manuscript. All your changes have been accepted.
Let me know if it is ok to publish it. The publication date will be either 30 October (because the issue is still open), or, if the current issue closes by the time you respond, the publication date will be between 1 and 15 November.

Also, please note that after publication no changes can be made to the manuscript.
Thank you,

Best Regards,
Tudor Păpuc
Editor, Bioflux

Pada tanggal Sel, 10 Nov 2020 pukul 16.31 Tudor Papuc <ptudor2008@yahoo.com> menulis:

Yes, I have just finished with the paper. Please find the paper with comments. What you need to do is this:

1. Read all the paper carefully, because the English was corrected and the text mainly formatted.
2. Read carefully the comments and try to correct as best as you can. Please work on this version of the manuscript. Please mark your changes (highlight with yellow, or use track changes; you can also leave the comments), so I can check them. If you cannot correct, do not wish to do so, or have your own explanations, please write the reason as a reply to the comment, or as a new comment.
3. If you have anything to add/change to the text not based on comments, please do so, but mark the changes like in point 2.
4. Try to respect the formatting when making changes.
5. After you make the corrections, please check again, to make sure everything is in order.
6. Send me back the corrected version of the manuscript.

I will check it, give it a final form, and send you the final version for a last check before publication.

Thank you,

Best Regards,

Tudor Păpuc
Editor, Bioflux

Hello,

For this month, the publication is almost impossible.

However, I can do the following:

I can give you a final acceptance letter, saying that the manuscript will be published in the current issue (September-October). If you recommend me 1-2 reviewers, it will go faster, and we can publish faster. But I still can't promise it will be this month, because:

- the reviewers will take a few days to review
- I need about 2 days to correct the English and formatting
- you will need a few days for the corrections
- I will give it a final form and send it back to you for a final check

- and only afterwards I can publish it
- meanwhile, I also have to work on many other papers, and other urgent matters might appear
In this time, you will also make the payment for priority processing (I will give you the details in the next mail).

But, if you recommend me 2 reviewers that will review fast, which is the most time consuming part, we can try to publish this month.

Let me know if this would help.

Best Regards,
Tudor Păpuc
Editor, Bioflux

Can you help me? we require this publication promptly (this month) because it relates to the requirements for the completion of the student studies. If possible, addressed as a fast process category (priority scale). We are willing to pay for manuscript processing fee with priority.

Thanks for cooperation.

Best regard
Dr. Muhammad Yusuf

Thanks a lot.

Pada tanggal Jum, 18 Sep 2020 pukul 13.25 Tudor Papuc <ptudor2008@yahoo.com> menulis:

Ok,

Your paper is preliminary accepted for publication. Please find attached the preliminary acceptance letter. The final acceptance or rejection will be confirmed after receiving the double-blind peer reviews.

After this acceptance you should pay 300 USD for publication (open access - priority processing).

As the payment and bank transfer may be time consuming you may start the process of payment right now; we will send you the invoice immediately after the payment.

Please let us know when the payment is done (scanned receipt) in order to start the publishing process.

In case the peer-reviews suggest rejection, we will return the payment. The payment will not be returned in case of withdrawal request by authors or simply lack of feedback.

Please note that the Publishing House Policy does not allow to start the manuscript editing prior payment.

Here are the info for payment;
take care to write correct the details:

Beneficiary: Bioflux SRL
City: Cluj-Napoca
Country: Romania, European Union

SWIFT CODE of the bank: BTRLRO22

Account USD: RO68BTRL01302202L28614XX

Bank: BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 275 usd instead of 300 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge. This situation is not desirable.

There is a second method of payment, by Paypal, with credit card. Please let me know if you choose this method and I will redirect you to our colleague which is in charge of this procedure.

Let me know if you need more details.

Thank you for publishing with us!

Best regards,

Tudor Papuc

Yes, I have just finished with the paper. Please find the paper with comments. What you need to do is this:

1. Read all the paper carefully, because the English was corrected and the text mainly formatted.
2. Read carefully the comments and try to correct as best as you can. Please work on this version of the manuscript. Please mark your changes (highlight with yellow, or use track changes; you can also leave the comments), so I can check them. If you cannot correct, do not wish to do so, or have your own explanations, please write the reason as a reply to the comment, or as a new comment.

3. If you have anything to add/change to the text not based on comments, please do so, but mark the changes like in point 2.
4. Try to respect the formatting when making changes.
5. After you make the corrections, please check again, to make sure everything is in order.
6. Send me back the corrected version of the manuscript.

I will check it, give it a final form, and send you the final version for a last check before publication.

Thank you,

Best Regards,

Tudor Păpuc
