Dear Dr. Hasnidar,

Regarding your manuscript submitted to AACL Bioflux, the editorial team has some requests prior to acceptance (please see the attachment).

Please note: Always operate corrections/additions (or deletions) in the manuscript we are sending you, by **highlighting with a bright color** (for an easy identification). We never work on the manuscript you send back, just identify the corrections and operate them on our document (to avoid any undesirable accidental operations like changed page set up, otherwise the editors have to start all the work from the beginning, and we cannot ask them to re-check every manuscript word by word to identify unmarked modifications).

Thank you for understanding!

Dear Dr. Hasnidar,

Please find the manuscript attached and make the necessary changes. We noticed you have changed the figures to black and white, we think that the previous colored version was more aesthetic, but it needed the small adjustments, just as these new figures need.

Thank you for your cooperation.
